Noise

dBadge2 Dosimeter

The dBadge2 personal noise dosimeter is the ideal tool for a variety of workplace noise assessments and campaigns with the added benefit of Bluetooth® connectivity.

Sound

CEL-62x Series (Class 2)

The 63x Series is designed to make workplace noise measurements as quick and simple as possible.

Boundary Monitor

Guardian2

This Multi-Agent Monitoring Station is designed to help you remain compliant with site emission levels.

High Flow Sampling

Vortex3

This pump is the latest generation of static, high-flow rate sampling pumps, which can now be controlled and monitored from your mobile phone or tablet.

Low Flow Sampling

VAPex

This range has been designed particularly for low flow sampling of vapors and gases in working environments.

Air Sampling Pumps

Apex2

This is the latest generation of personal sampling pumps, which can now be monitored from your mobile phone or tablet.

Casella Cyclone Sampling Head

The collection efficiency curve meets the ACGIH/ISO/CEN standards for a respirable curve with a median 50% cut point of 4micron

Field Calibrator

Flow Detective

The Personal Sampling Pump Calibrator is an easy-to-use, all-in-one airflow calibrator suitable for all types of air sampling pumps and other applications for flows up to 5 L/min.
